

For Students Who Park In D2 South

On December 19, 2011, work will begin for the construction of the faculty and staff Wellness Center. As illustrated in the site plan graphic below, vehicles that are parked in the red outlined section must be moved before students leave for Christmas break. Vehicles that are not moved will be lot-transferred to another location on campus at the expense of the student. Thank you for your cooperation.

For questions related to construction, please contact Mike Daly in Facilities Design & Operations at 574-631-4200.
